

ABDULLAH MOHAMED HUSSIEN

Next.js Front-End Developer

abdullahmo.official@gmail.com | 01005497891 | Giza, Egypt | [abdullah-mohamed.vercel.app](#)

PROFESSIONAL SUMMARY

Skilled Next.js Front-End Developer with experience building scalable, high-performance web applications. Strong background in modern front-end development, REST API integration, and performance optimization. Committed to delivering maintainable solutions aligned with business goals.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C#, C++, Dart, SQL

Frameworks & Libraries: Next.js, React.js, Node.js, Flutter

Core Competencies: Responsive UI Development, REST API Integration, SEO Optimization, Performance Optimization, Reusable Component Architecture

PROFESSIONAL EXPERIENCE

Next.js Developer — Gentech | Cairo, Egypt

2023 – Present

- Engineered high-performance web applications using Next.js and React, translating business requirements into scalable, user-friendly solutions.
- Collaborated with designers, back-end developers, and project managers to deliver responsive, SEO-optimized applications on schedule.
- Built and maintained reusable UI components to ensure consistency and reduce development time across projects.
- Integrated REST APIs for authentication, data management, and third-party services.

PROJECTS

Krakenz LMS — *Courses Platform*

- Participated in building the front-end of a learning management system using Next.js, covering admin, instructor, and user interfaces.
- Implemented responsive, role-based UI workflows tailored for three distinct user types: administrators, instructors, and learners.
- Engineered reusable components across all three interfaces to maintain a consistent design system and accelerate development.

SinceToonz — *E-Learning Platform*

- Collaborated on building and maintaining the front-end of an e-learning platform using Next.js and React.
- Built reusable, responsive UI components and integrated REST APIs for user authentication and course data.

Adepti — *HR Management Tool*

- Expanded the front-end of an HR management platform using Next.js and React, focusing on skill matching and candidate evaluation workflows.
- Constructed dynamic, reusable UI components and integrated REST APIs for employee data, role requirements, and matching logic.

EDUCATION

Diploma of Software Engineering

Elsewedy International School for Software

2023 – 2026

Cairo
